Boom Gate Operation

- Access to the site via Farnsworth Avenue and approach the boom gate pin pad
- There are only 8 designated sites in the reserve. There is no booking system in place. It is a first in, first position basis
- You must dial the Well Done Group on (02) 8579 0315 to register your vehicle details and mobile phone number, this will be used as your 48 hour access number to the site
- Parking is in the designated bays as depicted on the attached map.

The boom gate will operate on a timer along with existing gates and toilet facilities that are closed by security. The gates open at 5.30am and depending on the time of year are closed at 5.30pm in winter months and 8.00pm in summer months.

Those wishing to access the area after hours will need to use the gate intercom by pressing the # (hash) button. The intercom will call through to an operator to check if there are parking spaces available. The operator will then take the caller's details, mobile phone number, registration and intended stay duration. Once registered the operator will send you a confirmation SMS containing the phone number of the boom gate for you to call to gain access.

The gate will open automatically from the inside when vehicles are departing.
